## PROFILE

Since high school, I have been actively engaged in programming and achieved notable success, including winning the Edit Code School competition and placing first in my county in a frontend development contest. Currently, I am pursuing my studies at the Faculty of Electrical Engineering and Computing, University of Zagreb. I am eager to broaden my knowledge as much as possible, with a particular interest in data science and related fields.

## WORK EXPERIENCE

### Founder & Lead Developer, Prepko

2022–2025

- Architected and developed a full-stack online learning platform from the ground up to teach and mentor first-year FER students.
- Led the complete project lifecycle from technical vision and UX/UI design to final deployment and feature iteration.
- Engineered a custom WordPress CMS with themes and plugins using PHP, JavaScript, and MySQL to deliver a scalable, high-quality educational platform.

## PROJECTS

### Authentication system with roles and permissions

- Developed a full-stack authentication system with role-based access control.
- Backend: Flask | Frontend: Next.js | Database: PostgreSQL | Platform: Supabase
- Implemented secure login, registration, and permission management for different user roles.

### Webshop J&B

- Designed and developed a full-stack webshop independently using Express.js (backend) and EJS (templating engine).
- Implemented product listing, shopping cart, and basic user authentication features.
- Focused on creating a functional and user-friendly platform with a custom design.

## EDUCATION

### Bachelor in Computer Engineering

2023–2026

Faculty of Electrical Engineering and Computing (FER)

## ADDITIONAL INFORMATION

- **Programming languages:** Python, Java, C, C++, JavaScript
- **Web Development:** React, Next.js, Tailwind CSS, Spring, Flask
- **Databases:** PostgreSQL, MySQL
- **Tools & Platforms:** Git, Supabase, Render
- **Languages:** English, Croatian
- **Activities:** Tutoring & Mentoring, hackathons
